PROJECTS

Todo List Using React JS & Tailwind CSS

Dec 2023 - Dec 2023

<https://github.com/SayanSutradhar1/ToDo-List>

I have created a Todo List where we make todos and we can check whether it is completed or not also we can delete that from the list ...

in talks of functionality ... the web page runs very smooth and the page is pretty much responsive ...

Also a special feature is added in this page where we can change the theme light to dark and vice versa ...

Tech Stack used in this mini project -

1. React / Redux

2. Tailwind CSS
